TEAM INVITATIONS

Invitations to the World’s Championship Bar-B-Que Contest are extended on an annual basis at the sole discretion of the Show. Invitations are emailed to the registered Team Owner and are non-transferable.

Teams who receive an e-mailed invitation to participate must complete the annual World’s Championship Bar-B-Que Contest Online Lease Agreement (the “Lease Agreement”) on the Show’s website by the due date.

- Only complete Lease Agreements will be accepted.
- Lease Agreements may not be modified in whole or part.
- **Full payment** must accompany the Lease Agreement; extensions to pay the entry fees will not be granted.

When completing the Lease Agreement, teams are required to:

1. Electronically sign the Lease Agreement.
 - For teams owned by individuals, the registered Team Owner must complete the Lease Agreement online.
 - For teams owned by a company, the Lease Agreement must be completed by an individual duly authorized to do so, and who is empowered to bind the company to the terms of the Lease Agreement. The team must also list a main point of contact who can be reached, if needed, by committee or Show management.
2. Complete or update all team contact information (Team Coordinator and Chief Cook), by entering them in the “Current Contacts” section under the “Manage Account” tab in your online account.
3. Submit the completed Lease Agreement and fee online by the due date.
 - Failure to meet the annual deadline for submitting required forms and payment may result in forfeiture of the invitation.

- Partial or invalid payment (e.g., a returned check or declined credit card) may result in forfeiture of the invitation.

Special Invitations

The Show extends invitations to the winners of Rodeo Austin, the San Antonio Stock Show & Rodeo Bar-B-Que Cook-off, the Jack Daniel's World Championship Invitational Barbecue, and the American Royal World Series of Barbecue to compete in Champions Row. In exchange, these contests extend invitations to the winner of the World's Championship Bar-B-Que Contest. The Team Name, Team Owner, and the Chief Cook provided to the Show as the winner by the participating reciprocity contests must be the same that competes in Champions Row. Similarly, the winner of the World's Championship Bar-B-Que Contest must compete at these reciprocal competitions under the same Team Name with the same Team Owner and Chief Cook as listed in the online team account at the time they are named Grand Champion Overall. We will not allow any exceptions. Each team in Champions Row must follow all Meat Judging rules as listed in the Contest Information section of this handbook. Each team has the option for one (1) turn-in for the Dutch Oven Dessert Contest and one (1) turn-in for the Open Contest. We request that all teams be available for media opportunities as it relates to Champions Row.

If the winner of the previous year's World's Championship Bar-B-Que Contest participated on a special invitation, they will automatically receive an invitation to the current year's Contest so the team may defend their title. If the winner of the previous year's Contest is a regular team (not on a special invitation), they will also be offered a space in Champions Row in addition to their regular team space and the foregoing special rules will also apply.

If the team has won at one of the above mentioned contests and already has a space in the WCBBQ Contest, or receives an invitation to Champions Row by winning the previous year's Contest, that team must follow all Meat Judging rules as listed in the Contest Information section of this handbook. All meat entries may be cooked in Champions Row by the previous year's winning Chief Cook.

The regular WCBBQ team space and the Champions Row space are considered one team. The Champions Row space does not grant additional meat entries. No exceptions will be made. The team has the option to turn in one (1) Dutch Oven Dessert and one (1) entry for the Open Contest, from either Champions Row or the regular team space. Any and all discrepancies of a condition above should be submitted in writing to the WCBBQ Office (wcbqq@rodeohouston.com) and will be handled on a case-by-case basis. All final decisions will be decided by the Houston Livestock Show and Rodeo and the WCBBQ Committee.

Space sizes for special-invitation teams will vary depending on the number of participating teams.

TEAM OWNERSHIP

Team Owner

Each team must have a registered Team Owner. The Team Owner may be an Area Go Texan County, a Houston Metro Go Texan Committee, an individual, or a company.

- Before designating a Team Owner, each team should ensure familiarity with and acceptance of the responsibilities of team ownership as described throughout this Handbook.
- Team ownership does not equate to or contract as space ownership. Participation in the Contest is by invitation, on an annual basis, at the sole discretion of the Show.

Area Go Texan Team Ownership

Area Go Texan County invitations are extended by the Show on an annual basis. The invitations are e-mailed to the current Area Go Texan County Ambassador. Each County may select their annual team representative. The Lease Agreement must be signed and executed by a representative of the selected team.

Houston Metro Go Texan Team Ownership

Houston Metro Go Texan Committee invitations are extended by the Show on an annual basis. The Houston Metro Go Texan Committee will designate the teams to receive an invitation, and the Show will e-mail the invitation to the selected teams. The Lease Agreement must be signed and executed by a representative of the selected team.

Individual Ownership

Individual-owned teams are provided a one-time opportunity, at the time of their first participation in the Contest, to declare the registered Team Owner.

- Teams owned by an individual are required to list a Team Coordinator on their team's online account; the Team Coordinator may be different from the Team Owner.
- Changes to the Team Coordinator should be made via the team's online account at the time the Lease Agreement is signed.

Company Ownership

Company-owned teams are provided a one-time opportunity, at the time of their first participation in the Contest, to declare the registered Team Owner.

- Teams owned by a company are required to list a Team Coordinator on their team's online account at the time the Lease Agreement is signed.
- The Team Coordinator must be an employee of the Team Owner and must be authorized to perform legal and financial transactions on behalf of the Team Owner.
- The Team Coordinator will serve as the primary contact and decision maker for the team.

- Changes to the Team Coordinator should be made via the team’s online account.

Team Owner Responsibility

The Team Owner and Team Coordinator will be held responsible for the conduct of team members, guests, and any persons who are or have been in the team space (collectively, the “Team Representatives”). Any behavior deemed inappropriate by the Show may result in immediate expulsion from the Contest and forfeiture of future invitations.

The Team Owner or Team Coordinator must be physically present and available to Contest and Show management during the Contest operations, including setup and teardown periods.

Changes to Team Ownership

Requests for changes to team ownership must be submitted in writing and via certified mail by the current Team Owner to the WCBBQ Office before August 15 of the year preceding the Contest. If the Team Owner is a company, the certified letter should be received from the company’s Owner, President, CEO, or highest ranking official. The WCBBQ staff, Committee chairman, and officer-in-charge will review the request, and teams will be notified of the decision.

Changes to Team Name

A team may change the team name by emailing a request with the new team name to the WCBBQ Office (wcbmq@rodeohouston.com) **prior to signing** the annual Lease Agreement. The Show will notify the Team Owner within 30 days of the Lease Agreement due date whether the change has been approved or not.

Teams may not have the same or substantially similar name. In the event a team requests a name already being used by another Contest team, the request will be denied. If a team splits, the registered Team Owner at the time of the split will be allowed to retain the team name.

Team Relationships

Teams are encouraged to inform the Show about relationships with neighboring teams. Sometimes, utility, safety, or other issues require teams to be relocated. It is to the team’s benefit to make the Show aware of relationships so that they may be taken into consideration when evaluating space changes or relocations.

Team relationships must be documented by both teams to be deemed valid.

Teams wishing to combine or share space must receive pre-approval from the Show. Requests to combine or share space must be submitted via the Team Relationship Form by October 1. The form can be found on the team’s online account. Requests will be reviewed by the WCBBQ staff, Committee chairman, and officer in charge, and teams will be notified via email to check their team’s online account regarding the decision. The Team Relationship form must be submitted yearly by both teams in question.

3. Teams may only host events in their team space during the hours that the Contest is open to the general public (see page 13).
4. Teams with questions should contact the WCBBQ Office for clarification.

Tips to Avoid Counterfeit Invitations

It is the responsibility of each team to monitor the invitations to their areas and determine which guests will be permitted access. The following are tips to help teams avoid counterfeit invitations:

1. Print tickets on high-quality card stock to which counterfeiters may not have easy access.
2. Print invitations on safety paper to prevent copying.
3. Imprint invitations with a foil stamp, hologram, or color photo.
4. Include language on the invitation that makes counterfeiting of the ticket legally actionable.
5. Train the team members at the door to spot counterfeit passes.
 - Look for inaccuracies or alterations to the ticket.
 - Look for color variations from the original ticket.
 - Check for spelling mistakes on the ticket.
 - Check the quality of the printing. Fake tickets can sometimes have blurred printing as a result of using a cheap printer or copier. Real tickets should have clear, crisp print.
6. Search for online postings selling team invitations (e.g., Craigslist, eBay, Facebook) and respond to prevent the sale of duplicate invitations.
7. Use a printed guest list at the door to verify invitation holders.
8. Exchange the ticket for a wristband at the door to avoid guests passing back their ticket to another person.
9. Use barcoded tickets and portable ticket scanners to ensure the barcode is not used more than once.

SPACE LAYOUTS AND OCCUPANCY CALCULATIONS

Teams are required to prepare a detailed space layout, have the layout onsite during move-in and the Contest, and provide the layout to the Fire Marshal, WCBBQ Committee member, or Show officials immediately upon request. Failure to adhere to this rule may result in immediate expulsion from the Contest and forfeiture of future invitations. The layout and the occupancy calculation do not need to be turned into the Show in advance of the Contest.

Tent Permitting Process

Permits are required for any space with a tented area, or tented aggregate area, of 1,200 sq. ft. or more. Forms that are emailed to the teams must be filled out and submitted to the City of Houston by January, 1st. Guidelines for the Tent Permitting Process can be found on the Bar-B-Que Page under the downloads section.

Space Layout Guidelines

Please prepare the space layout using the guidelines below and ensure the listed information is clearly marked.

1. Draw the space layout on an 8-1/2" x 11" piece of paper.
2. Provide directional orientation (North arrow).
3. Include the team name and 2025 space number on the drawing.
4. Clearly mark the dimensions of all tent structures and the placement of those structures within the team space.
5. Indicate exit locations, their width, and the distance between each exit for each tented structure.
6. Mark dimensions and locations of all items inside the tented structure, including, but not limited to, tables, chairs, bars, stages, storage, pits, cooking appliances, fryers, and grills.
7. Clearly mark all other structures and items located outside the tented structure but within the space, including, but not limited to, tables, chairs, bars, stages, storage, pits, cooking appliances, fryers, and grills.
8. Calculate the occupancy load of the tented structure as drawn. Show both the calculation and the load number.

Calculating Occupancy Load

Each team using a tented structure in their space will be required to calculate the occupancy load of the tented structure.

1. The occupancy calculation and the load number must be included on the space layout.
2. The calculation and number must be available for immediate inspection by the Fire Marshal, WCBBQ Committee member, and Show officials. Failure to fully cooperate with the Fire Marshal or Show officials may result in immediate expulsion from the Contest and forfeiture of future invitations.
3. Teams must provide a 24" x 24" sign stating the occupancy load.
 - Sign must be placed inside the tent and near the main entrance or exit, in a highly visible location where it may be easily identified and read.
 - The occupancy load must be printed in 4" red letters on a white background.

To calculate the occupancy load:

1. Divide the square footage of the floor area of the tented structure using a number based on the contents of that square footage of the tented space.
2. If the square footage of the tented area has:

Tables, Chairs, Stage, Bars.....divide tent square footage by 15
 Dance floor and chairs only..... divide tent square footage by 7
 Standing space only.....divide tent square footage by 5

3. Example: If you have a 1,200-square-foot tent and the square footage is used as follows:

<u>Area Usage</u>	<u>Square Feet</u>	<u>Calculated Occupancy</u>
Bar	50	50 / 15 = 3
Standing space	50	50 / 5 = 10
Stage	200	200 / 15 = 13
Tables and chairs	450	450 / 15 = 30
Dance floor	<u>450</u>	<u>450 / 7 = 64</u>
Totals	1,200 square feet	120 occupants

Monitored Occupancy Count

Each team will be required to station a doorman who will use a counter to monitor headcount inside the tented structure and will restrict entry if the headcount reaches maximum occupancy. The Fire Marshal may request a count at any time. Occupant load of tents may be reduced if deemed unsafe by the Fire Marshal. Failure to fully cooperate with the Fire Marshal may result in immediate expulsion from the Contest and forfeiture of future invitations.

Exit Space Instructions

Each team using a tented structure in their space will be required to meet the following rules with respect to the number of exits and the placement of exits. The Fire Marshal will be on-site to review exit placement. No exceptions to the rules below will be granted. Failure to fully cooperate with the Fire Marshal’s inspection and requests for modifications may result in immediate expulsion from the Contest and forfeiture of future invitations.

Required Exit Space

Each tent with flaps or hard wall boundaries MUST have the appropriate number of entrances/exits based on the occupancy calculation.

Occupancy	Minimum Number Entrance/Exits	Minimum width
Up to 199 people	two	six feet each

200 to 499 people	three	six feet each
500 to 999 people	Four	eight feet each
1000 to 1999	Five	ten feet each
2000 to 2999	Six	ten feet each

Exit Spacing

Exits must be spaced at least half of the tent diameter apart if they are placed on the same wall. (Example: If a tent is 40 ft. X 40 ft., then the diameter is 57 ft. Half the diameter equals 28.5 ft., so the exits must be spaced at least 28.5 ft. apart if they are both on the front wall of the tent.)

Following is a sample list of the MINIMUM exit-spacing requirements. **Teams are required to meet these standards in their space layout and tent design.**

Tent Size	Minimum Exit Spacing
20' x 40'	22.5'
30' x 30'	21.5'
30' x 40'	25'
40' x 40'	28.5'
40' x 50'	32'
40' x 80'	45'

Other Exit Requirements

1. In limited cases with written permission, teams may be allowed to utilize an emergency exit along the back wall closest to the utility aisle. This exit will only be opened to the public in an EMERGENCY situation, and the team will be required to station security at that exit at all times to ensure it is not used at any other time. If a team feels this option is necessary to comply with the fire code, the team must submit a variance request to the WCBBQ Office.
2. The required minimum width of each exit and equivalent pathway leading to the exit must be kept clear at all times.
3. Exit flaps will not be laced closed.
4. All exits must be marked with a **battery back-up luminous** or **self-luminous** exit sign.

1. The Show does not have a designated tent provider for the Contest.
2. All teams are required to provide the Show with a 24/7 phone number and monitored email address for the team's contracted tent company. The **Tent Information Form** can be found on the team's online account and is due by February 1, 2025. The Tent Information Form should be submitted online.
3. All tents must have a fire-retardant certificate attached to the tent from installation to tear down. It is the team's responsibility to ensure this is provided by the tent company of your choice at the time of installation. The Show does not require you to submit a copy of this certificate to the WCBBQ Office.
4. See the move-in section for specific timeline and rules regarding tent setup.

VARIANCE REQUESTS

Teams requesting a variance (for porches, façades, exits into utility aisles, use of area behind team space or other structures or equipment that will cause the team to extend beyond its assigned boundary) must submit a Variance Request Form online.

The Variance Request Form is located on the team's online account. Please follow the online instructions to complete the form.

The following information will be required:

- Space number(s).
- Clear description of how the variance will be used.
- Detailed drawing of the full space layout with variance request, including dimensions. You will be required to upload the drawing online upon submission of the Variance Request Form.

These layouts will not be returned. Teams must keep a copy of the layout for use as needed and have a copy on-site during move-in and the Contest.

Variance consideration will not be given to any team who has not followed these procedures.

1. All variance requests must be submitted online by November 1, 2024.
2. Variance requests submitted to any other party or after the due date may not be given full consideration.
3. Upon receipt, the variance request will be reviewed by Show management and Committee leadership. If there are questions about the variance, or if additional information is needed, the team will be notified via email by the WCBBQ Office. The **Team Coordinator** will be notified by email of the decision regarding the variance request no later than December 1, 2024.

4. Variance requests must be submitted annually, and approvals are not grandfathered. An approved variance request from a previous Contest year does not guarantee approval of the variance for the 2025 Contest.
5. Questions regarding your 2025 variance request should be directed to the WCBBQ Office (wcbmq@rodeohouston.com).
6. Teams that extend outside their assigned space without an approved variance will be required to remove all structures, equipment, supplies, etc., from the space. Failure to cooperate may result in immediate expulsion from the Contest and forfeiture of future invitations.
7. Teams that extend outside their assigned space without an approved variance will be required to pay twice the current variance square foot price.
8. Port-o-cans are not to be visible to the general public. They are not allowed in any visible variance space.

Individual Responsibility

The Team Owner and Team Coordinator will be held responsible for the conduct of team members, guests, and any persons who are or have been in the team space. Any behavior deemed inappropriate by the Show may result in immediate expulsion from the Contest and forfeiture of future invitations.

Requirements

1. **Teams serving alcohol in their team space must secure their spaces with the appropriate number of uniformed peace officers, licensed by the state of Texas, unless the team meets ALL the following criteria:**

6. Teams serving alcohol in their team space are required to use an appropriate number of TABC-certified bartenders. The team is responsible for determining the appropriate number and should follow these guidelines:
 - The Texas Alcoholic Beverage Commission strongly feels that trained servers and managers are better able to identify and prevent service of alcoholic beverages to minors and intoxicated persons. The agency has certified courses for seller/server training. These courses cover the laws applicable to the service of alcoholic beverages to minors, intoxicated persons, and others and teach techniques to identify these persons and prevent sales to them.
 - Recommendations for certified bartenders include at least one certified bartender per every 5 feet of bar space (always round up) or for every 100 people.

SAFETY AND EMERGENCY PROCEDURES

EMERGENCY PLAN

The objective of the Emergency Plan is to provide information, procedures, and a plan of action to protect life and property in the event of an emergency during Show operations. Emergencies include fire, bomb threat, explosion, severe weather, and other accidents and/or disasters.

Reporting an Emergency

In the event of an emergency, the first individual at the scene should immediately contact the Show's Safety Office at (832) 667-1300. Be prepared to provide:

- your name and contact number;
- the type of emergency;
- the location of the emergency; and
- whether or not emergency medical help is necessary.

In the unlikely event that the Safety Office line is busy or not answered, contact the Show's Security Office at (832) 667-3636. If necessary, call 911.

Team Representatives are encouraged to take advantage of speed-dial features and to program these numbers for rapid access.

In the event cellular service is not available, Team Representatives should immediately seek Safety and Emergency Personnel and provide them with specific information about the emergency situation. Safety and Emergency Personnel include licensed, uniformed law enforcement officers, Houston Fire Department officials, and HLSR Safety Committee members and are further described in the "Personnel" section below.

First Aid Locations

The Show's Safety Committee provides first aid services at multiple locations on the NRG Park grounds during the Contest.

NRG Arena

- Located in the southwest corner of the Arena proper, just inside the west glass doors.

Carnival

- Located near the southeast corner of the Stadium outside the Amegy Bank gate.
- Located northwest of NRG Arena.

WCBBQ Contest

- Located near the intersection of Bill Bailey Boulevard and Committee Street, directly behind space D650.

- Located near the intersection of Bill Bailey Boulevard and NRG Stadium Way, directly behind space A504.

Personnel

The Show has two distinct groups responsible for managing emergency situations. These groups are Security and Emergency Personnel, and Emergency Management Contacts. Both groups are described below and may be collectively referred to as the “Emergency Team.”

Security and Emergency Personnel

“Security and Emergency Personnel” are those individuals designated to give direction in the event of an emergency. The Show’s Security and Emergency Personnel include:

1. Licensed law enforcement officers, primarily uniformed Houston Police Department and Harris County Sheriff’s Department officers;
2. Houston Fire Department officials;
3. HLSR Safety Committee members (Safety Committee volunteers can be identified by their tan vests).

Emergency Management Contacts

The Show’s senior management team members are designated as “Emergency Management Contacts.” While primary direction in emergencies will come from Security and Emergency Personnel, Team Representatives may also receive direction from the Emergency Management Contacts listed below. These individuals can be identified by a credential that includes the Show year and the individual’s name, title and photo.

Chairman of the Board:	Pat Mann Phillips
President/Chief Executive Officer:	Chris Boleman
Chief Show Operations Officer:	Mike DeMarco
Chief Financial Officer:	Katie Grahmann
Chief Technology Officer:	Steve Gumerman
Chief Mission Officer:	Julie Bass
Chief Marketing Officer:	Lisa Gagnon
Chief Volunteer & HR Officer:	Melinda Underhill
Chief Strategic Planning Officer:	Peter McStravick

Notification Methods

There are several methods of notification that will be used in the event of an emergency during the World’s Championship Bar-B-Que Contest.

1. An outdoor warning system may be used to warn visitors to take shelter in the event of an emergency, such as a severe weather event. The system consists of strategically placed speakers that emit warning signals and an automated/manual audio system.
2. Verbal instructions may be provided by the Emergency Team.
3. Notification by HLSR and NRG Park staff members, identified by NRG Park credential.

Team Representatives are required to follow evacuation and any other instructions issued via the methods listed in items 1 through 3 above; no exceptions. Violators are subject to removal from the current and future Shows and/or arrest by law enforcement.

Advance Planning

To ensure their personal safety as well as the safety of the general public, all Team Owners and Team Coordinators should take the following precautionary steps upon arrival at NRG Park.

1. Familiarize themselves and all Team Representatives with the Emergency Plan.
2. Be prepared to immediately evacuate their exhibit space by identifying how to quickly secure inventory, cash, valuables, etc.

Team Owners and Team Coordinators will be held accountable for securing their areas of responsibility. As part of advance planning, teams should also:

1. Identify the nearest building for safe shelter in place. Each team should have displayed in their team space a muster map (see Appendix A) designating their specific muster location.
2. Ensure that all tents and other structures and signage are securely set and anchored.
3. Implement a plan to quickly store or secure all other equipment, including, but not limited to, chairs, tables, inventory, cooking equipment, awnings.

The Team Owner is responsible for ensuring that all Team Representatives are informed of what action to take in the event of an emergency. The Team Owner is responsible for ensuring that all Team Representatives are safely evacuated and accounted for in the event of an emergency.

SEVERE WEATHER PLAN

The Severe Weather Plan identifies actions to be taken at the Contest when it is evident a severe weather event may occur during Contest hours. Flexibility must be exercised when implementing this plan due to the various circumstances associated with each weather event, and the Emergency Team may exercise discretion where necessary to ensure people's safety.

General Information

NRG Park staff monitors local weather reporting stations through the command post located in NRG Center. The Center command post operates continuously during the entire Show, and Security and Emergency Personnel are kept up to date on the current weather conditions. In the event of a severe weather event, the command post will determine which, if any, safety measures are needed. These measures may include, but are not limited to, closing any temporary venues such as tented structures, carnival and/or other outdoor venues, or complete grounds evacuation.

After a severe weather event has occurred, HLSR management, staff, and contractors will inspect the grounds and facilities for damage. Necessary repairs will be made to any damaged facilities and equipment before the general public will be allowed back into the area and the Show resumes operations. Once it is safe, an announcement will be made giving the all-clear for patrons, volunteers, and exhibitors to return to their normal scheduled events.

Notification

In the event of a severe weather emergency, information and instructions will be communicated via the methods described in the Notification Methods section above.

Lightning and Thunderstorms

Team Representatives can remain safe during lightning episodes and when thunderstorms are overhead or in the vicinity of NRG Park by evacuating to the Park's buildings while the storm is in the area. When a team becomes aware of lightning or thunderstorms, Team Representatives should activate their Advance Plan to secure their area and go to safe shelter immediately. Unless otherwise advised by Emergency and Security Personnel, seek shelter in either NRG Stadium or NRG Arena, whichever is most accessible.

Windstorms

When a windstorm event is indicated, the Emergency Management Contacts will assess the situation and confirm the appropriate course of action. Instructions will be issued to all patrons via the methods detailed in the Notification Methods section above.

If sustained winds reach 25 miles per hour:

1. Team Representatives are responsible for ensuring that all tents, tent sidewalls, facades, and other equipment are secured.
2. Scheduled events may be cancelled and a voluntary evacuation announcement may be issued.

If sustained winds reach 35 miles per hour:

1. All outdoor exhibits may be closed and outdoor scheduled events may be cancelled as necessary.
2. A mandatory evacuation may be issued for all people within the area, as necessary.
3. Team Owners and Team Coordinators should activate their Advance Plan to secure their area and go to safe shelter immediately. Unless otherwise advised by the Emergency Team, seek shelter in either NRG Stadium or NRG Arena, whichever is most accessible.

Tornadoes

To remain safe during a tornado, Team Representatives should put as many walls between themselves and the tornado as possible. This means inside buildings with interior bathrooms, hallways, and closets on the lowest floor are the best place to be.

When tornadoes threaten, Team Representatives should activate their Advance Plan to secure their area and go to safe shelter immediately (see Appendix A).

Team Representatives whose safe shelter is **NRG Arena** should proceed to:

- bathrooms located on the first floor of the building;

- office and storage rooms, as directed by emergency personnel;
- a first floor stairwell foyer; or,
- the arena area and stand as near a permanent structural wall or the arena wall as possible.

Team Representatives whose safe shelter is **NRG Stadium** should proceed to:

- bathrooms located on the service and concourse levels of the building;
- office and storage rooms, as directed by emergency personnel;
- a first floor stairwell foyer; or,
- the hallways on the service level, away from any glass.

After arriving at the safe shelter point, people should:

1. Use their arms to protect head and neck in a “drop and tuck” position.
2. Stay away from windows.

If caught outside, people should:

1. Lie flat in a ditch or depression.
2. Use arms to protect head and neck in a “drop and tuck” position. Use jacket, cap, backpack, or any similar items, if available, to protect face and eyes.
3. Avoid sheltering in small buildings, under isolated trees, under tents or near fences or poles.

FIRE SAFETY

General Information

Team Representatives should report a fire emergency to the Show’s Safety Office at (832) 667-1300. Be prepared to provide:

- your name and contact number;
- the fire location;
- the type and/or cause of the fire, if known; and,
- whether or not emergency medical help is necessary.

In the event cellular service is not available, Team Representatives should immediately seek Safety and Emergency Personnel and provide them with specific information about the emergency situation.

1. All fires, no matter the size, must be reported to the Safety Office.
2. If the fire is small and contained, attempt to put it out with a fire extinguisher. **Do not jeopardize personal safety to do so.** Never allow the fire to come between you and the exit.
3. If the fire cannot be contained:
 - Evacuate the area and report to your designated Muster Area (see Muster Procedures section below).
 - **Do not attempt to save possessions or equipment at the risk of personal injury.**

Evacuation Procedures

In the event that evacuation orders are issued by audio system or by Security and Emergency Personnel, **Team Representatives will immediately follow the evacuation order, no exceptions.**

Violators are subject to removal from the current and future Contests and/or arrest by law enforcement.

Upon evacuation, Team Representatives will follow the Advance Plan formulated by their Team Owner.

The Team Owner or Team Coordinator must report to their designated Muster Area:

1. The Team Owner and Team Coordinator are responsible for ensuring that all Team Representatives are safe and accounted for prior to reporting to the Muster Area.
2. WCBBQ volunteers will be stationed at each Muster Area.
 - The volunteers will hold a sign that states “WCBBQ Muster Area” and includes the Muster Area location number (see chart below).
 - The volunteers will confirm with each Team Owner or Team Coordinator that their personnel are safe and accounted for.
 - The volunteers will confirm to the WCBBQ Staff that all Team Owners or Team Coordinators have checked in at the Muster Area.
3. Team Representatives will remain in the Muster Area until further instructions are received from the Emergency Team.

Muster Areas

Muster areas are assigned based on the location of the team space; the assignments are detailed below. The Team Owner or Team Coordinator should report to their primary Muster Area unless the emergency has rendered the Muster Area unsafe, in which case the Team Owner or Team Coordinator should report to any Muster Area that can be reached safely and quickly.

Exhibit Location	Muster Location Number	Muster Area
Section A	1	NRG Stadium Bud Plaza Gate (see map on Appendix A)
Section B	2	NRG Arena Performance Arena, West End (see map on Appendix A)
Section C	3	NRG Stadium Bud Plaza Gate (see map on Appendix A)
Section D	4	NRG Arena Performance Arena, East End (see map on Appendix A)

OTHER EMERGENCIES

In the event of any other emergency, such as a bomb threat, explosion, or other disaster, instructions will be issued via one of the notification methods described in the Notifications section above.

When instructions are issued by audio system or by Security and Emergency Personnel, **Team Representatives will immediately follow the instructions; no exceptions.** Violators are subject to removal from the current and future Contests and/or arrest by law enforcement.

If Team Representatives are ordered to evacuate, they should follow the team's Advance Plan. The Team Coordinator or Team Owner should ensure all Team Representatives are safely evacuated and then proceed to the Muster Areas, following the same procedures described above in the Fire Safety section.

Bands delivering and removing equipment must do so during move-in and delivery (restocking) hours, or after the Contest closes in the evening. Equipment may NOT be delivered when the Contest is open to the public.

Teams may not bring supplies or equipment through the public gates after the Contest has opened to the public. The Gatekeepers Committee volunteers will deny access; teams not cooperating with the Gatekeepers Committee are subject to disciplinary action including removal from the current and future Contests.

MOVE-IN LOGISTICS

Tent Setup

1. If sections are released prior to the scheduled date and time for **structure tents**, the tent company, Team Owners, and Team Coordinators will be notified by email. **It is very important that you include a monitored email address from the tent company on your Tent Information Form.**
2. If the setup of frame tents is available prior to Monday at noon, the tent companies, Team Owners, and Team Coordinators will also be notified by email.
3. If the tent setup needs to be temporarily halted or adjusted to accommodate the Power Provider’s work, the WCBBQ Logistics Subcommittee will advise the tent company.
4. A Team Representative must be present at the time of tent setup to help avoid mistakes. Please note: team vehicles during tent setup should be limited to as few as possible, and stage for as short a time as possible, so as not to block aisles and other team tent setups.
 - It is each team’s responsibility to ensure their tent is placed correctly before staking or driving pins. If a tent is staked incorrectly, including encroachment into the neighboring team space or utility aisle, corrections will be at the expense of the team.
 - If the tent dimensions do not conform to space dimensions, the team should seek a variance by the variance deadline so that the space may be marked appropriately. The WCBBQ Logistics Subcommittee should be contacted before staking or driving pins if

the tent does not conform to the marked space so that we may be involved in setup adjustments.

- The Team Representative should ensure the tent company has posted company identification inside of the tent (4" X 8") at eye level near the main tent exit, including the name of the tent company (owner), owner representative, and a 24/7 contact phone number.
 - The Team Representative should ensure that the team has a copy of the flame-retardant certificate on hand at all times during move-in, the Contest, and move-out.
5. No tent drops or assembly is permitted in the aisles. The aisles must remain clear for traffic at all times.
 6. The power easements must remain clear at all times. No encroachments of any kind are permitted.
 7. Vehicles:
 - Vehicles are not permitted to drive over power cables not protected by a cable cover at any time.
 - Tent company trucks may not block aisles. Tent companies must stagger parking to allow the passage of vehicles. Once unloaded, the trucks should be moved to open areas while the company continues with the setup work.
 - No vehicle parking is permitted in team spaces and vehicles may not be left unattended. All vehicles on the grounds before the official team move-in should have a card or sign on the vehicle windshield or dashboard with the name and contact number of the driver so that vehicles that impede setup may be moved quickly. Be courteous to other teams and their hired contractors.
 8. Tent Stakes/Pins:
 - All stakes and pins are to be driven perpendicular to the ground, not angled out into the adjacent space, power alleys, or public areas. If your tent company feels they need an exception, consult with the WCBBQ Logistics Subcommittee.
 - No tent poles may come into direct contact with the surface. A wooden or plastic block must be placed under each pole.
 - All tent stakes and pins must be capped.

Vehicle Access

Once team move-in begins, all vehicles must report to the 610 Lot staging area **before** they will be allowed on the World's Championship Bar-B-Que Contest grounds. This includes vehicles returning to the Contest grounds after having been previously admitted.

- Only vehicles with a large number of items to be delivered will be allowed entry into the Contest grounds. After the vehicle is unloaded, it must be moved off the Contest grounds to a parking lot.
- Teams **MUST** access NRG Park from the gate associated with their move-in pass.

Tuesday

- Teams may park in the Green Lot (until 5pm) or 610 Lot on Tuesday until 5 PM at no charge.
- Vehicles with few or small items will need to park in the Green or 610 Lots and hand-carry the items across the bridge using self-provided dollies or hand carts.
- All vehicles must be removed from the Green Lot by 5 p.m. on Tuesday.
- Vehicles may remain in the Green Lot after 5 p.m. ONLY if a pre-purchased Wednesday parking pass is properly displayed inside the vehicle.

Wednesday

- Teams may park at no charge in the 610 Lot or in the Green Lot with a pre-purchased Wednesday or 3-day parking pass. There is no shuttle or tram service from these lots to the Contest grounds.
- Vehicles with few or small items will need to park in the 610 or Green Lot and hand-carry the items across the bridge using self-provided dollies or hand carts.

Thursday - Saturday

- Team vehicles must be parked in the lot associated with their daily parking pass for Thursday through Saturday of the Contest. Parking is also available on a first come first served basis in the 610 lot for \$25.

610 Lot Procedures

1. Vehicles arriving at the 610 Lot location must enter through Gate 19 off of Bellfort Road and will be directed to a staging area by WCBBQ Committee members.
2. Once positioned, the driver will exit the vehicle, proceed to the check-in area, and receive the gate move-in pass that will allow access to the Contest grounds. **You are required to list your name and cell phone number on the gate move-in pass so that we may reach you if your car is blocking access for other vehicles.**
3. After receiving the gate move-in pass, the vehicle will remain at the 610 Lot staging area until a WCBBQ Committee member releases the vehicle to proceed to the Contest grounds.
4. **Only two vehicles per space will be permitted on the Contest grounds at any one time.**
5. Once released from the staging area, please proceed to your assigned entry gate noted on your move-in pass.
 - Entry gates are assigned according to your space number. Please see Appendix B in this Handbook for your gate assignment.
 - Your gate assignment will also be listed on the move-in pass.
 - Please notify all your team members and delivery companies of your entry gate.

On the Contest Grounds

1. When approaching the Contest grounds, you must prominently display the gate move-in pass and corresponding team space number to gain entry. The move-in pass must be completed with the driver's name and contact information so that we may reach you immediately if needed. Any vehicle found without a move-in pass, or with the wrong side of the pass displayed, may be towed.

2. Each vehicle will be allowed 30 minutes to unload. **Once a vehicle is unloaded, it must leave the compound area.** This is a practical consideration for additional vehicles waiting for entry.
3. If you are asked to move your vehicle and it is not moved in a timely manner, it will be towed at the owner's expense.
4. **Unattended vehicles left inside the compound will be towed at the owner's expense.**
5. Vehicles must leave the compound area through the designated exit gate.
6. Gate passes will be surrendered to WCBBQ Committee members when you exit the Contest grounds.
 - When you exit, WCBBQ gate personnel will contact the 610 Lot to allow your team's next vehicle to enter.
 - Each trip to the Contest grounds requires a new gate move-in pass from the 610 Lot staging area.

Vendors Making Multiple Team Deliveries

Vendors making deliveries to multiple teams (e.g., tent companies, food suppliers) may report directly to the Contest grounds via Gate 6 off the 610 feeder road between Fannin and Kirby.
